

Chairmans Report / Temp League Controller Report

The season ran very smoothly all year with no need to have to form an appeals committee for anything during the year.

There were however a couple of matters of concern. The first involved an individual member raising a complaint relating to a matter that had occurred the previous season which escalated into accusations made against all the individual members of one of our clubs. Thankfully the member withdrew his remarks & the Club involved accepted his apologies & took the matter no further. Unfortunately the member felt so aggrieved that he withdrew from playing any games run by the CCA.

The second incident involving defaulted games has already been highlighted. I do empathise with Collin Smith who has tried to do his best to get his players to travel to away games but at the end of the day you can't force people to play. It has to be remembered that such instances like this do not just impinge on the one Club who default the game but can have a major say in the relegation stakes with some teams being saved from relegation as a result & others being demoted instead.

It is with that in mind that prompted me to look at our league structure & rules which we will debate later in the meeting.

That concludes my report
