Once again they were some dates missing from the Individual & one internal event all players should be aware by now that it is to their own benefit to provide match dates when submitting results.

All games sent to me throughout the year will eventually be graded; however the playing deadlines remain June 30th & Dec 31st, games played after these will be entered into the following half-yearly list.

There is a certain amount of leeway for me to submit results after the playing deadline but obviously if i receive batches of them the day after deadline day then they may not be enough time for me to deal with them , the vast majority of organisers are aware of this by now though,. This would be especially true if I took my holidays in June.

So I'd like to request a cut-off point for club internal events played throughout the season of June 1st to be sure your competition makes the deadline. I know that some events are ongoing throughout the year so this is not essential just a precaution, as stated previously all games will be graded eventually, and I will advise the organisers if I intend to be away around deadline time.
